

Barwon Health Paediatric Emergency Department

Kane Constructions was awarded the \$19 million Lump Sum contract to deliver a new paediatric emergency department inside the existing emergency department for Barwon Health.

The project was delivered over three stages and the new paediatric emergency department included 28 treatment spaces, including fast-track and short-stay beds. A separate triage system and waiting area is also being delivered along with new treatment rooms and support areas.

The facility was designed to provide a private, calm and reassuring environment for children and their families.

This project reached Practical Completion in late 2024.
