

Bulimba Barracks Roof Replacement

The Bulimba Barracks Roof Replacement works consisted of re-roofing the A01 Warehouse on the Bulimba Barracks, and minimal interior works which included new carpet, vinyl and joinery.

As the Navy had a function planned on site in mid-May, works had to be completed prior to the event. Kane worked closely with the client to ensure a timely practical completion was achieved.

This project reached an early completion date, one week ahead of schedule.
