

Emerald Apartments, Settlers Cove

Emerald Apartments is Stage 3B of the Settler's Cove development located high on the edge of Noosa Sound, less than one kilometre from the ever-popular Hastings Street.

The project involved the construction of a four storey building consisting of 14 luxury apartments, basement garage, roof terrace pools and landscaped areas.

Kane facilitated the smooth construction of developer Cape Bouvard's latest multi-residential dwelling, which was completed with the finest finishes and inclusions, featuring natural stone, solid American oak doors and generous living areas.

Delivering an exceptional standard in luxury apartment living, Settler's Cove was designed to offer an outstanding quality of life to its residents, high on amenity and pleasure, and low on maintenance.
