

Haven House Heathmont Refurbishment

Kane Constructions is proud to be refurbishing Haven House, Heathmont, in partnership with the Property Industry Foundation and Lighthouse Foundation.

For the past 15 years, the five-bedroom home in Melbourne's outer eastern suburbs has provided a safe, supportive environment for children and young people experiencing homelessness and trauma. Through Lighthouse Foundation's model of care, Haven House Heathmont offers not only accommodation, but also the stability, therapeutic support and sense of belonging needed to help young people rebuild their lives.

Kane is delivering upgrades to the home's bathroom, kitchen and interior spaces to help revitalise the property and better support the important programs delivered within it.

Several trades and supply partners are contributing to the project, and we thank each of our partners involved:

[AC Interiors](#) | [ALD Corporate](#) | [Anova Electrical](#) | Ark Coating | [Chadoak](#) | [Dulux](#) | [Mapei](#) | [Milliken](#) | [Protecta](#) | [Stanmore Ceramics](#) | Harvey Norman | Yarra Carpentry

Together, this collaboration will help ensure Haven House Heathmont can continue its important work for the next generation of young people, providing the care, stability and long-term support needed to break the cycle of homelessness and intergenerational trauma.
