

Henry Harrison Grandstand Sandown

Construction of a new fully enclosed grandstand at Sandown Greyhound Racing Club. First conceived in 1982, the new grandstand was completed and opened in mid-1986.

Kane Constructions was appointed under a lump sum contract. A key feature of the \$4 million project was the extensive use of glass which was engineered to be top hung to allow for unimpeded views.

The grandstand also houses entertainment spaces and catering facilities.
