

Lawnton State School, New Multipurpose Hall

Kane Constructions has been engaged under a Design & Construct contract by the Department of Education to construct a new single storey multipurpose hall building, within the existing and operational Lawnton State School campus.

The building will consist of:

- Multipurpose court area
- Covered entrance
- Foyer
- Stage
- Audio visual control room
- Two equipment and chair store rooms
- Multipurpose room
- Kiosk and kitchen facilities
- PWD with shower
- Male and female amenities
- Cleaners' store
- Change rooms and data room

In addition to the construction of the hall, Kane will also complete the construction of covered linkways connecting the existing school to the new building.

Kane will deliver the project collaboratively alongside the school's stakeholders to ensure there is no disruption to the operational school environment nearby to our works.

Works are set to be completed by early 2021.
