

## Marcellin College Hermitage Project

The \$16M Marcellin College Hermitage Project comprised the refurbishment of the iconic central building, the Hermitage, and construction of a new central atrium and adjoining teaching wing.

A new front of house and office spaces for the Marcellin leadership team was constructed in the adjacent building - the Marist House including a linkage between the two spaces.

A new car park was developed adjacent to the Marist House on the existing tennis courts, replacing the existing car parking spaces that were lost as a result of the Hermitage extension.

Works were completed ahead of the 2018 school year.
