

## Maroondah Hospital Medical Imaging

This \$5 million Lump Sum contract involved the construction of a new medical imaging wing elevated above an existing car park. The project was delivered in three stages:

Stage 1 : Construction of the new wing

Stage 2 : Refurbishment of the former medical imaging area

Stage 3 : Refurbishment of the existing reception areas

Running concurrently with the above stages was an upgrade of the hospital central mechanical plant including new chillers and boilers

The project was completed in late 2007.
