

North Ipswich Social Housing | 22 Units

Kane Constructions has been engaged by the Queensland Government under a Design and Construct contract to deliver a new social housing development at North Ipswich.

The four-storey development will provide essential housing supporting the Queensland Government's broader social housing objectives.

The project includes 22 units comprising of Platinum and Gold level homes under the Social Housing Design Guideline. The building is being constructed using conventional concrete slabs and masonry block walls, providing a durable, robust and efficient structural solution designed for long-term performance and ease of maintenance.

Kane is proud to be continuing its partnership with the Queensland Government through the delivery of this important community infrastructure project, which will provide safe, secure and accessible accommodation for those in need while contributing to the growing housing capacity of the region.
