

Worongary State School Performing Arts Hall

Kane Constructions was awarded the project for the Design and Construction of a performing arts hall for the Building Education Revolution.

The performing arts hall contains a main performing stage with specialist sound and lighting which, has quickly become a popular culture and social resource for the school and community.

The performing arts hall also comprises of a multimedia room, outdoor learning area, meeting spaces including a kitchen and general amenities, creating a seamless relationship between academics, art and entertainment within the school and broader community.
