
Birrong Boys and Birrong Girls High School

Kane Constructions Pty Ltd
kane.com.au

Kane Constructions was engaged by School Infrastructure NSW under a GC21 Design and Construct Contract to deliver a major upgrade of Birrong Boys and Birrong Girls High Schools. Designed by TKD Architects and in partnership with Turner & Townsend project managers, the project was delivered within a live school setting, requiring detailed planning and coordination to minimise disruption the schools.

The Birrong Boys High School works included upgrades to the existing multipurpose hall and COLA, the construction of new general and specialised learning spaces for science, food technology, and materials learning, new staff and administration facilities, a refurbished student support unit, and improved landscaped outdoor areas.

The Birrong Girls High School upgrade delivered a new multipurpose hall and COLA, new general learning spaces, a purpose-built visual arts unit, a refurbished materials learning unit, new staff and administration areas, and revitalised outdoor spaces.

Kane’s collaborative and solution-focused approach was key to the smooth and timely delivery of this project. This successful delivery strengthens our ongoing partnership with School Infrastructure NSW and reaffirms our commitment to creating dynamic, future-focused learning spaces that inspire students and serve the needs of growing communities.
