Client

Victoria University

Victoria University Construction Futures

Consultants

DCWC Project Management
Cox Architects

The $44 million Construction Futures project at Victoria University in Melbourne was completed by Kane Constructions in late 2012.

The 12,000m2 facility designed by Cox Architects provides a first class centre from which to deliver construction and building training.

Location

Victoria

The environmentally sustainable design expresses the progressive nature of the construction industry - the influx of new materials and construction design technologies that are available and rapidly developed - encouraging industry partners to engage with the centre, providing the students with invaluable experience and industry exposure.

Value

$44M

The project has been certified with a 6 Star Green Star design rating under Education v1.

Awards

2013 Master Builders Association of Victoria Excellence in Construction of Commercial Buildings $30M - $80M
